

ULTIMA

COMPOSILITE

ULTIMA IS NOT JUST A NAME BUT HOW WE APPROACH THE PRODUCT DEVELOPMENT

We endeavour to bring you the ultimate ultra lite 5th wheel with the ultimate quality, finish, layout, components and construction. We are so confident in our quality that we stand behind our products with one of the best warranties in the industry, three (3) year structural & two (2) year bumper to bumper

ULTIMA 27 BEING TOWED BY MAZDA BT50 DUAL CAB 4X4 DIESEL MANUAL

- Bullet shaped front cap allows for better articulation and less wind resistance
- Every aspect of the design has been designed to improve fuel economy.
- Ultra lite weight construction combined with the front cap and flat underbelly gives the Ultima the best fuel economy in its class.
- LED cap lights aid in those night hook up and unhook procedures

Dexter's revolutionary new shock absorbing load sharing suspension, tested and proved in Australia's outback. Warranted in Australia for Australia by Dexter in writing.

External access to water pump, plumbing and filter. For ease of access, service and repair the water pump and filter are enclosed in a lockable exterior compartment

THE PANTRY, ENTERTAINMENT CENTRE AND DESK OF THE 27RK

- Class leading 6 door pantry
- Desk with three drawers standard with chair or with optional recliner of your choice
- Entertainment centre with Dolby Digital surround sound in living areas AM/FM/CD/MP3/DVD with speakers in living area, bedroom and external

- Optional 22 inch LCD HD tuner TV with outside hook up standard
- Standard safety gas detector
- Standard LED internal lighting reduces heat and conserves battery life.

24MK

27RK

ULTIMA 27 RK BEING TOWED BY MAZDA BT50 DUAL CAB 4X4 DIESEL MANUAL

- Bullet shaped front cap allows for better articulation and less wind resistance
- The shaped front cap allows the unit to be positioned closer to the rear of the cab, allowing improved laminar air flow between the tow unit and the Ultima. It also allows the pin to be positioned directly over the rear axle improving handling and safety.
- Unlike a caravan the lack of a draw bar and with the Ultima's overlap of the tow vehicle it allows for a shorter overall length
- The combined towing length is less than many caravans with half the interior space.
- The fifth wheel configuration will easily out handle most larger caravans
- Break through material and construction technology. THREE years in the design and 5 months of testing and compliancing in Australia delivers the ultimate ultra lite 5th wheel, anywhere!
